Revision number: 5

SAFETY DATA SHEET KNOT FILLER CHERRY

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND THE COMPANY

1.1 Product identifier

Product name: KNOT FILLER CHERRY

Product Code: M319-6017

1.2 Relevant information of the substance/mixture and uses advised against

Use: For filling and repair of wood, such as pine, birch etc.

1.3 Details of the supplier of the Safety Data Sheet

Supplier: RPM Wood Finishes Group

P.O. Box 22000 Hickory, NC 28603 828-728-8266

1.4 Emergency telephone number

CHEMTREC: 800-424-9300

International: 703-527-3887 (collect)

2. HAZARDS IDENTIFICATION

2.1 Classifications of the product/mixture according to 1272/2008

Skin sensitisation. Category 1A (H317)

2.2 Classification according to CLP 1272/2008

Contains Maleic anhydride

Signal word: Danger

Danger sentence H317 – May cause an allergic skin reaction

Safety sentence P261 - Avoid breathing dust/fume/gas/mist/vapours/spray

P280 - Wear protective gloves/protective clothing/eye protection/face protection.

P302 + 350 - IF on skin: Gently wash with soap and water.

P333 + 313 - If skin irritation or a rash occurs: Get medical advice/attention.

P362 - Take off contaminated clothing and wash before reuse.

P501 - Dispose of contents/container to an approved incineration plant

2.3 Other information/dangers:

Safety/dangers: Solid product: None. Melted product: Burn hazards when melted (according to our knowledge the

fumes coming from the material when applied do not show any danger). Nevertheless, we recommend

use of ventilation at the working place. See §8.

PBY & vPvB: This product contains no substance considered to be persistent, bioaccumulating or toxic (PBT). This

product contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

Page 2 of 8 KNOT FILLER CHERRY

Issued: June 2022 Revision number: 5

3. COMPOSITION - INFORMATION ON INGREDIENTS

3.1/2 Ingredients/mixture

Chemical name: Polyamide

Chemical name	EC No	CAS No.	Weight- %	Classification according to Regulation (EC) No. 1272/2008 [CLP]	Specific concentration limit (SCL)	REACH Registration Number
Phenol, 4-methyl-, reaction products with dicyclopentadiene and isobutylene	271-867-2	68610-51-5	0.1- <1	Aquatic Cronic 4 (H413) Repr. 2 (H361d)		01-2119496062- 39-XXXX
Maleic anhydride	203-571-6	108-31-6	0.0015- <0.01	Acute Tox. 4 (H302) Skin Corr. 1B (H314) Eye Dam. 1 (H318) Resp. Sens. 1 (H334) Skin Sens. 1A (H317) STOT RE 1 (H372) (EUH071)	Skin Sens. 1A:: C>=0.001%	01-2119472428- 31-xxxx

3.3 Other information

The full text of all H-danger sentences is shown in section 16. Exposure limits shown in section 8.

This product does not contain ingredients of very high concern in a concentration >=0.1% (Reach 1907/2006). VOC-content of

KNOT FILLER CHERRY is 0 % according to the VOC Directive 2010/75/EU.

4. FIRST AID MEASURES

4.1 Description of first aid measures

In general: Burn hazards when melted (according to our knowledge the fumes coming from the material when

applied do not show any danger).

Inhalation: Melted product: Seek fresh air if you feel discomfort. See a doctor if you continue to feel discomfort.

Show this MSDS.

Solid product: Not expected route of exposure.

Skin contact: Melted product: rinse with plenty of cold water until pain disappears and continue another 15 min. Do

not remove/tear off burnt product, moisturize skin with non-perfumed cream - see a doctor in case of

severe burns. Solid product: wash skin with mild soap and water.

Eye contact: Melted product: rinse with plenty of cold water immediately for minimum 15 min. See an

ophthalmologist immediately and continue rinsing during transport.

Solid product: In case of eye contact, remove contact lenses and rinse immediately with plenty of water,

also under eyelids, for at least 15 minutes.

Ingestion: Get immediate medical advice/attention. Do not induce vomiting without medical advice.

4.2 Most important symptoms and effects, both acute and delayed

Contact with melted product may cause burn hazards of skin and eyes.

4.3 Indication of any immediate medical attention and special treatment needed

Burns caused by melted product must be treated by doctor/medical clinic. All burns to be treated as thermal burns after decontamination.

Page 3 of 8 KNOT FILLER CHERRY

Issued: June 2022 Revision number: 5

5. FIREFIGHTING MEASURES

5.1 Extinguishing media All media are usable. Avoid using water jet as it may spread the fire.

5.2 Special hazards arising from the substance/mixture

Specific dangers: In case of high temperatures hazardous decomposition products may occur – Carbon dioxide, carbon

monoxide, nitrogen oxides, sulphur oxides, dust and fumes.

5.3 Advice for firefighters

Protection: Use protection clothes and self-contained breathing apparatus (SCBA).

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Protection person: See section 8

In general: Ensure adequate ventilation. If possible let melted product harden before removal.

6.2 Environmental precautions

Environment: Prevent any material from entering drains or waterways.

6.3 Methods and material for containment and cleaning up

Cleaning methods: Solid product: gather spillage into waste drums or plastic bags. Melted product: can be gathered after

cooling / naturally solidified.

6.4 Reference to other sections

See section 8 and 13

7. HANDLING AND STORAGE

7.1 Precautions for safe handling

Handling: Use adequate ventilation in high temperature processing to prevent exposure to vapours. Facilities for

quick drenching the body should be provided withing the immediate work area for emergency use

where there is a possibility of exposure.

See section 8 for personal protection. Avoid possible inhalation of fumes from melted product. Avoid

contact with skin and eyes of melted product.

Hygiene: Handle in accordance with good industrial hygiene and safety practice. Do not eat, drink or smoke when

using this product. Wash thoroughly after handling. Take off all contaminated clothing and wash it

before reuse.

7.2 Conditions for safe storage, including any incompatibilities

Storage: Keep in a dry place. Room temperature between 5° - 20° away from potential sources of heat, open

flames, sunlight and other chemicals. Partially used bags should be closed tightly or the remaining Knot Filler should be transferred into an airtight container and kept in a cool dry place as this product slightly absorbs moisture from the air, which may cause foaming when the Knot Filler is melted and may result

in adequate bonds.

7.3 Specific and use(s)

To be used only as specified in Technical Data Sheet plus section 1 of this SDS.

Page 4 of 8 KNOT FILLER CHERRY

Issued: June 2022 Revision number: 5

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

Exposure limits:

Derived No Effect level (DNEL)				
Phenol, 4-methyl-, reacti	on products with dicyclop	entadiene and isobutylene	e (68610-51-5)	
Туре	Exposure route	DNEL	Safety factor	
Worker Long term	Inhalation	0.29 mg/m ³		
Systemic health effects				
Worker Long term	Dermal	0.42 mg/kg bw/d		
Systemic health effects				

Maleic anhydride (108-31-6)				
Туре	Exposure route	DNEL	Safety factor	
Worker Long term	Inhalation	0.4 mg/m ³		
Systemic health effects				
Worker Short term	Inhalation	0.8 mg/m ³		
Systemic health effects				
Worker Long term	Inhalation	0.4 mg/m ³		
Local health effects				
Worker Short term	Inhalation	0.8 mg/m ³		
Local health effects				

Phenol, 4-methyl-, reaction products with dicyclopentadiene and isobutylene (68610-51-5)				
Туре	Exposure route	DNEL	Safety factor	
Consumer Long term Systemic health effects	Inhalation	0.07 mg/m ³		
Consumer Long term Systemic health effects	Dermal	0.21 mg/kg bw/d		
Consumer Long term Systemic health effects	Oral	0.04 mg/kg bw/d		

Predicted No Effect Concentration (PNEC)				
Phenol, 4-methyl-, reaction products with dicyclopentadiene and isobutylene (68610-51-5)				
Environmental compartment	Predicted No Effect Concentration ()PNEC)			
Freshwater	0.01 mg/l			
Marine Water	0.001 mg/l			
Seawage treatment plant	100 mg/l			
Freshwater sediment 426 mg/kg dry weight				
Marine sediment 85.25 mg/kg dry weight				
Soil	85.16 mg/kg dry weight			

Maleic anhydride (108-31-6)		
Environmental compartment	Predicted No Effect Concentration ()PNEC)	
Freshwater	0.1 mg/l	
Marine Water	0.01 mg/l	
Seawage treatment plant	44.6 mg/l	
Freshwater sediment	0.334 mg/kg dry weight	
Marine sediment	0.333 mg/kg dry weight	
Soil	0.042 mg/kg dry weight	

8.2 Exposure controls

Tech. measures:

Ensure adequate ventilation, especially in confined areas. Vapours/aerosols must be exhausted directly at the point of origin. Ensure access to eye rinsing bottle and emergency shower (relevant for melted product)

Page 5 of 8 KNOT FILLER CHERRY

Issued: June 2022 Revision number: 5

General: Smoking, eating or drinking, as well as storage of tobacco, food and drinks not allowed in working area.

Wash hands and other exposed areas with mild soap and water before ingestions of food and beverage

or smoking, as well as at the end of work. Avoid contact with skin and eyes of melted product.

Personal means: Personal means to be chosen in accordance with current CEN standards and in cooperation with the

supplier of personal means.

Inhalation: Ensure adequate ventilation of working area, especially in confined areas.

Vapours/aerosols must be exhausted directly at the point of origin.

Hand: Melted product: We recommend use of non-fusible, heat resistant gloves (i.e.

cotton)

Solid product: For operations where prolonged or repeated skin contact may occur, impervious gloves

should be worn. Gloves must conform to standard EN 374

Eye: Melted product: Use safety glasses with side shield or protection goggles if risk of contact with melted

product according to standard EN 166. Eyewash fountains should be provided in areas where there is

any possibility that workers could be exposed to the melted product.

Skin: Standard non-fusible working clothes. Melted product: wear suitable protective clothing.

Environment: Prevent any material from entering drains or waterways.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Physical state		Colour	Smell	Dynamic Viscosity
Granules or sticks 1	2 or 43mm	Walnut	Low	5.5 – 7.5 Pa.s at 190°
Flash point >200°C	Boiling point	Vapour pressure 100°C	Density ~1 @23C°	Melting point
Ignition	Auto ignition	Softening point 120-130°C	Solubility in water Non-soluble	r

9.2 Other information

_

10. STABILITY AND REACTIVITY

10.1 Reactivity There is no reactivity if used as described in Technical Data Sheet plus section 1.2 of SDS.

10.2 Chemical stability The product is stable if handled as described in Section 7.

Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition

source is a potential dust explosion hazard.

10.3 Possibility of hazardous reactions None known

10.4 Conditions to avoid Keep away from strong heat and direct sunlight. Avoid static discharge (electrostatic

discharge)

10.5 Incompatible materials Strong oxidizing agents, strong acids and strong bases.

10.6 Hazardous decomposition prod. In case of high temperatures hazardous decomposition products may occur – Carbon

dioxide, carbon monoxide, nitrogen oxides, sulphur oxides, dust and fumes. Avoid

inhalation

Page 6 of 8 KNOT FILLER CHERRY

Issued: June 2022 Revision number: 5

11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Inhalation: Based on available data, the classification criteria are not met. Eye contact: Based on available data, the classification criteria are not met.

Skin contact May cause sensitisation by skin contact. Specific test data for the substance or mixture is

not available. Repeated or prolonged skin contact may cause allergic reactions with

susceptible persons. (Based on components)

Ingestion: Based on available data, the classification criteria are not met.

Symptoms: Itching. Rashes. Hives.

Acute toxicity

Component information

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
Phenol, 4-methyl-,	>5000 mg/kg (Rattus)	> 5010 mg/kg	>165 mg/l (Rattus)
reaction products with		(Oryctolagus	1h
dicyclopentadiene and		cuniculus)	
isobutylene 68610-51-5			
Maleic anhydride	LD50= 1090 mg/kg	= 2620 mg/kg	>4.35 mg/l (Rattus)
108-31-6	(Rattus) OECD 401	(Oryctolagus	1h
		cuniculus)	

Skin corrosion/Irritation

Based on available data, the classification criteria are not met.

Serious eye damage/-irritation

Based on available data, the classification criteria are not met.

Respiratory or skin sensitisation May cause sensitisation by skin contact.

Maleic anhydride (108-31-6)					
Method	Species	Exposure route	Results

dicyclopentadiene and isobutylene		
68610-51-5		
Maleic anhydride	-2.61	
108-31-6		

12.4 Mobility in soil

No information available.

12.5 Results of PBT and vPvB assessment

Chemical name	PBT- and vPvB assessment	
Phenol, 4-methyl-, reaction products with dicyclopentadiene	The substance is not PBT/vPvB	
and isobutylene		
68610-51-5		
Maleic anhydride	The substance is not PBT/vPvB. PBT assessment does not apply	
108-31-6		

12.6 Other adverse effects

Prevent any material from entering the environment

13. DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Gather residues into waste containers. Destroy according to the rules given by the local/national authorities.

Packaging (card boxes) to be disposed with other cardboard packaging.

European Waste Catalogue 08 04 10 waste adhesives and sealants other than those mentioned in 08 04 09.

Other information: Waste codes should be assigned by the user based on the application for which the product was used.

14. TRANSPORT INFORMATION

15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EC Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents.

EC Directive 94/33/EC for the protection of young workers.

EC Directive 92/85/EC on the protection of pregnant and breastfeeding women at work.

EC Directive 1272/2008 (CLP), EC Directive 453/2010 (Update CLP)

EC Directive 2010/75 (VOC)

EU Directive 830/2015 Replacing Directive 67/548/EC and 1999/45/EC

EC Directive 1907/2006 (REACH)

Page 8 of 8 KNOT FILLER CHERRY

Issued: June 2022 Revision number: 5

SVHC: Substances of Very High Concern for Authorisation:

This product does not contain candidate substances of very high concern at a concentration >=0.1% (Regulation (EC) No. 1907/2006 (REACH), Article 59)

EU-REACH (1907/2006) - Annex XVII - Substances subject to Restriction

This product does not contain substances subject to restriction (Regulation (EC) no. 1907/2006 (REACH), Annex XVII).

Substances subject to authorisation per REACH Annex XIV

This product does not contain substances subject to authorisation (Regulation (EC) No. 1907/2006 (REACH), Annex XIV)

Ozone-depleting substances (ODS) regulation (EC) 1005/2009

Not applicable

Persistent Organic Pollutants

Not applicable

15.2 Chemical safety assessment

Chemical Safety Assessments have been carried out by the Reach registrants for substances registered at >10tps. No chemical safety assessment has been made for the product.

16. OTHER INFORMATION

16.1 Full wording of H-sentences in section 3:

EUH071 – Corrosive to the respiratory tract

H302 - Harmful if swallowed

H314 – Causes severe skin burns and eye damage

H317 – May cause an allergic skin reaction

H318 – Causes serious eye damage

H334 – May cause allergy or asthma symptoms or breathing difficulties if inhaled.

H351 – Suspected of causing cancer - Route of exposure Inhalation Xu et al (2010), carcinogenic activity of nanoscale TiO2 administered by an intrapulmonary spraying (IPS)

H361d – Suspected of damaging the unborn child

H372 – Causes damage to organs through prolonged or repeated exposure

H413 – May cause long lasting harmful effects to aquatic life

TWA TWA (Time-weighted average)
STEL STEL (Short Term Exposure Limit)

Ceiling Limit Value

* Skin designation

SVHC Substance(s) of Very High Concern

PBT Persistent, Bioaccumulative, and Toxic (PBT) Chemicals vPvB Very persistent and very Bioaccumulative (vPvB) Chemicals
