25 October 2020

Version 3

## **SAFETY DATA SHEET**

| Section 1. Identification        |  |  |  |  |
|----------------------------------|--|--|--|--|
| Product name                     | : EPOXY PUTTY STICK NATURAL OAK  |  |  |  |
| Product code                     | : M743-1575  |  |  |  |
| Other means of identification    | : Not available.   |  |  |  |
| Product type                     | : Solid.   |  |  |  |
| Relevant identified uses of      | f the substance or mixture and uses advised against  |  |  |  |
| Product use                      | : Industrial applications.   |  |  |  |
| Use of the substance/<br>mixture | : Coating. Paints. Painting-related materials.   |  |  |  |
| Uses advised against             | : Not applicable.  |  |  |  |
| Supplier                         | RPM Wood Finishes Group<br>2220 US Highway 70 SE, Ste 100<br>Hickory, NC 28602<br>Phone: 828-728-8266<br>Fax: 828-728-2409 |  |  |  |
| Emergency telephone<br>number    | : Chemtrec 1-800-424-9300  |  |  |  |

### Section 2. Hazards identification

| OSHA/HCS status                            | <ul> <li>This material is considered hazardous by the OSHA Hazard Communication Standard<br/>(29 CFR 1910.1200).</li> </ul>  |
|--|--|
| Classification of the substance or mixture | <ul> <li>KIN CORROSION - Category 1C<br/>SERIOUS EYE DAMAGE - Category 1<br/>SKIN SENSITIZATION - Category 1<br/>CARCINOGENICITY - Category 1A<br/>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract<br/>irritation) - Category 3<br/>SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 1</li> <li>Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity: 100%<br/>(oral), 100% (dermal), 100% (inhalation)</li> </ul> |
| GHS label elements                         |  |

### Section 2. Hazards identification

| Hazard pictograms                   |   |
|-------------------------------------|---|
| Signal word                         | : Danger  |
| Hazard statements                   | <ul> <li>Causes severe skin burns and eye damage.</li> <li>May cause an allergic skin reaction.</li> <li>May cause respiratory irritation.</li> <li>May cause cancer.</li> <li>Causes damage to organs through prolonged or repeated exposure.</li> </ul>   |
| Precautionary statements            |   |
| Prevention                          | : Øbtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection. Use only outdoors or in a well-ventilated area. Do not breathe dust. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace.   |
| Response                            | : IF exposed or concerned: Get medical advice or attention. IF INHALED: Remove<br>person to fresh air and keep comfortable for breathing. Immediately call a POISON<br>CENTER or doctor. IF SWALLOWED: Immediately call a POISON CENTER or doctor.<br>Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all<br>contaminated clothing. Rinse skin with water. Immediately call a POISON CENTER or<br>doctor. Wash contaminated clothing before reuse. IF ON SKIN: Wash with plenty of<br>water. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES:<br>Rinse cautiously with water for several minutes. Remove contact lenses, if present and<br>easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor. |
| Storage                             | : Store locked up. Store in a well-ventilated place. Keep container tightly closed.   |
| Disposal                            | : Dispose of contents and container in accordance with all local, regional, national and international regulations.   |
| Supplemental label elements         | : Sanding and grinding dusts may be harmful if inhaled. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. Emits toxic fumes when heated.   |
| Hazards not otherwise<br>classified | : None known.   |

### Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture                       |
|-------------------|---------------------------------|
| Product name      | : EPOXY PUTTY STICK NATURAL OAK |

### Section 3. Composition/information on ingredients

| Ingredient name  | %           | CAS number |
|--|-------------|------------|
| , not containing asbestiform fibres                                      | ≥90         | 14807-96-6 |
| glass, oxide, chemicals  | ≥75 - ≤90   | 65997-17-3 |
| bis-[4-(2,3-epoxipropoxi)phenyl]propane                                  | ≥75 - ≤90   | 1675-54-3  |
| Poly[oxy(methyl-1,2-ethanediyl)], α-hydro-ω-hydroxy-, ether with         | ≥50 - ≤75   | 72244-98-5 |
| 2,2-bis(hydroxymethyl)-1,3-propanediol (4:1), 2-hydroxy-3-mercaptopropyl |             |            |
| ether  |             |            |
| Epoxy resin (MW $\leq$ 700)  | ≥10 - ≤20   | 25068-38-6 |
| 2,4,6-tris(dimethylaminomethyl)phenol                                    | ≥10 - ≤15   | 90-72-2    |
| titanium dioxide   | ≥1.0 - ≤5.0 | 13463-67-7 |
| bis[(dimethylamino)methyl]phenol   | ≥1.0 - <5.0 | 71074-89-0 |
| crystalline silica, respirable powder (<10 microns)                      | ≥1.0 - ≤5.0 | 14808-60-7 |

SUB codes represent substances without registered CAS Numbers.

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person.

#### Description of necessary first aid measures

| Eye contact  | : Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention.                            |
|--------------|--|
| Inhalation   | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.   |
| Ingestion    | : If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting.  |

#### Most important symptoms/effects, acute and delayed

| Potential acute health effects | <u>S</u>   |
|--------------------------------|--|
| Eye contact                    | : 🗭auses serious eye damage.   |
| Inhalation                     | : May cause respiratory irritation.  |
| Skin contact                   | : 🗭 auses severe burns. May cause an allergic skin reaction.                 |
| Ingestion                      | : No known significant effects or critical hazards.                          |
| Over-exposure signs/sympto     | oms  |
| Eye contact                    | : Adverse symptoms may include the following:<br>pain<br>watering<br>redness |

Date of issue 25 October 2020 Version 3

Product name EPOXY PUTTY STICK NATURAL OAK

### Section 4. First aid measures

| Inhalation                 | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing   |
|----------------------------|---|
| Skin contact               | : Adverse symptoms may include the following:<br>pain or irritation<br>redness<br>blistering may occur  |
| Ingestion                  | <ul> <li>Adverse symptoms may include the following:<br/>stomach pains</li> </ul>   |
| Indication of immediate me | dical attention and special treatment needed, if necessary  |
| Notes to physician         | <ul> <li>In case of inhalation of decomposition products in a fire, symptoms may be delayed.</li> <li>The exposed person may need to be kept under medical surveillance for 48 hours.</li> </ul>  |
| Specific treatments        | : No specific treatment.  |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

### Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising from the chemical     | : No specific fire or explosion hazard.   |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon oxides<br>nitrogen oxides<br>sulfur oxides<br>halogenated compounds<br>metal oxide/oxides   |
| Special protective actions for fire-fighters   | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without suitable<br/>training.</li> </ul> |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

### Section 6. Accidental release measures

| <b>Personal</b> | precautions, | protective | equipment | and emer | gency | procedures |
|-----------------|--------------|------------|-----------|----------|-------|------------|
|                 |              |            |           |          |       |            |

| For non-emergency<br>personnel | :   | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Provide adequate ventilation.<br>Wear appropriate respirator when ventilation is inadequate. Put on appropriate<br>personal protective equipment.   |
|--------------------------------|-----|---|
| For emergency responders       | :   | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | :   | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).   |
| Methods and materials for co   | ont | ainment and cleaning up   |
| Small spill                    | :   | Move containers from spill area. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Place spilled material in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.  |
| Large spill                    | :   | Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

### Section 7. Handling and storage

#### Precautions for safe handling

| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|---|
| Special precautions                    | : If this material is part of a multiple component system, read the Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts.   |
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |

### Section 7. Handling and storage

| avoid environmental contamination. |
|------------------------------------|
|------------------------------------|

### Section 8. Exposure controls/personal protection

#### Control parameters

**Occupational exposure limits** 

| Ingredient name  | Exposure limits                                     |
|--|---|
| ✓alc , not containing asbestiform fibres   | ACGIH TLV (United States, 3/2019).                  |
|  | TWA: 2 mg/m <sup>3</sup> 8 hours. Form: Respirable  |
|  | OSHA PEL Z3 (United States).                        |
|  | TWA: 2 mg/m <sup>3</sup>                            |
| glass, oxide, chemicals  | OSHA PEL (United States).                           |
|  | TWA: 15 mg/m <sup>3</sup>                           |
|  | TWA: 5 mg/m <sup>3</sup> Form: Respirable           |
|  | TWA: 15 mg/m <sup>3</sup> Form: Total dust          |
|  | ACGIH TLV (United States).                          |
|  | TWA: 1 f/cc Form: Continuous filament glass         |
|  | fibers  |
|  | TWA: 5 mg/m <sup>3</sup> , (Inhalable) Form:        |
|  | Continuous filament glass fibers                    |
|  | TWA: 3 mg/m <sup>3</sup> Form: Respirable           |
|  | TWA: 10 mg/m <sup>3</sup> Form: Total dust          |
|  | ACGIH TLV (United States, 3/2019).                  |
|  | TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Inhalable   |
|  | fraction  |
|  | TWA: 1 f/cc 8 hours. Form: Respirable fibers:       |
|  | length greater than 5 uM; aspect ratio equal to     |
|  | or greater than 3:1 as determined by the            |
|  | membrane filter method at 400-450X                  |
|  | magnification (4-mm objective) phase contrast       |
|  | illumination.                                       |
| bis-[4-(2,3-epoxipropoxi)phenyl]propane  | None.   |
| Poly[ $\alpha$ , $\alpha$ , $\alpha$ , $\beta$ | None.   |
| 2,2-bis(hydroxymethyl)-1,3-propanediol (4:1),  |   |
| 2-hydroxy-3-mercaptopropyl ether   |   |
| Epoxy resin (MW $\leq$ 700)  | None.   |
| 2,4,6-tris(dimethylaminomethyl)phenol  | None.   |
| titanium dioxide   | OSHA PEL (United States, 5/2018).                   |
|  | TWA: 15 mg/m <sup>3</sup> 8 hours. Form: Total dust |
|  | ACGIH TLV (United States, 3/2019).                  |
|  | TWA: 10 mg/m <sup>3</sup> 8 hours.                  |
| bis[(dimethylamino)methyl]phenol   | None.   |
| crystalline silica, respirable powder (<10 microns)  | ACGIH TLV (United States, 3/2019).                  |

| _     |  |   |  |

Z = OSHA 29 CFR 1910.1200 Subpart Z - Toxic and Hazardous Substances

#### Consult local authorities for acceptable exposure limits.

| Recommended monitoring procedures |            | If this product contains ingredients with exposure limits, personal, workplace<br>atmosphere or biological monitoring may be required to determine the effectiveness of<br>the ventilation or other control measures and/or the necessity to use respiratory<br>protective equipment. Reference should be made to appropriate monitoring standards.<br>Reference to national guidance documents for methods for the determination of<br>hazardous substances will also be required.  |
|-----------------------------------|------------|--|
| Appropriate engineering controls  | :          | Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.   |
| Environmental exposure controls   | :          | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.  |
| Individual protection measur      | <u>'es</u> |  |
| Hygiene measures                  | :          | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Contaminated work clothing should not be allowed out of the workplace. Wash<br>contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.  |
| Eye/face protection               | :          | Chemical splash goggles and face shield.   |
| Skin protection                   |            |  |
| Hand protection                   | :          | Chemical-resistant, impervious gloves complying with an approved standard should be<br>worn at all times when handling chemical products if a risk assessment indicates this is<br>necessary. Considering the parameters specified by the glove manufacturer, check<br>during use that the gloves are still retaining their protective properties. It should be<br>noted that the time to breakthrough for any glove material may be different for different<br>glove manufacturers. In the case of mixtures, consisting of several substances, the<br>protection time of the gloves cannot be accurately estimated. |
| Gloves                            | :          | nitrile neoprene   |
|                                   |            |  |

United States Page: 7/16

Product name EPOXY PUTTY STICK NATURAL OAK

### Section 8. Exposure controls/personal protection

| Body protection        | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
|------------------------|--|
| Other skin protection  | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |

### Section 9. Physical and chemical properties

| <u>Appearance</u>                            |        |   |
|--|--------|---|
| Physical state                               | Solid. |   |
| Color  | Not av | vailable.                                   |
| Odor   | Not av | vailable.                                   |
| Odor threshold                               | Not av | vailable.                                   |
| рН   | Not av | vailable.                                   |
| Melting point                                | Not av | vailable.                                   |
| Boiling point                                | Not av | vailable.                                   |
| Flash point                                  | Close  | d cup: Not applicable.                      |
| Auto-ignition temperature                    | Not av | vailable.                                   |
| Decomposition temperature                    | Not av | vailable.                                   |
| Flammability (solid, gas)                    | Not av | vailable.                                   |

### Product name EPOXY PUTTY STICK NATURAL OAK

### Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.  |
|------------------------------------|---|
| Chemical stability                 | : The product is stable.  |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.<br>Refer to protective measures listed in sections 7 and 8. |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.              |
| Hazardous decomposition products   | : Decomposition products may include the following materials: carbon monoxide, carbon dioxide, smoke, oxides of nitrogen.                     |

| United States | Page: 10/16 |
|---------------|-------------|
|               |             |

### Section 11. Toxicological information

| Name  |            | Route of<br>exposure | Target organs |
|---|------------|----------------------|---------------|
| crystalline silica, respirable powder (<10 microns) | Category 1 | inhalation           | -             |

Target organs

: Contains material which causes damage to the following organs: liver, spleen, bone marrow. Contains material which may cause damage to the following organs: kidneys, lungs,

cardiovascular system, upper respiratory tract, immune system, skin, eyes.

#### **Aspiration hazard**

Not available.

#### Information on the likely routes of exposure

#### Potential acute health effects

| Eye contact                | : 🖉auses serious eye damage.   |
|----------------------------|--|
| Inhalation                 | : May cause respiratory irritation.  |
| Skin contact               | : 🗭auses severe burns. May cause an allergic skin reaction.  |
| Ingestion                  | : No known significant effects or critical hazards.  |
| Over-exposure signs/symp   | <u>otoms</u>   |
| Eye contact                | : Adverse symptoms may include the following:<br>pain<br>watering<br>redness   |
| Inhalation                 | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing  |
| Skin contact               | : Adverse symptoms may include the following:<br>pain or irritation<br>redness<br>blistering may occur   |
| Ingestion                  | : Adverse symptoms may include the following: stomach pains  |
| Delayed and immediate effe | ects and also chronic effects from short and long term exposure  |
| Conclusion/Summary         | : There are no data available on the mixture itself. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness. Solvents may cause some of the above effects by absorption through the skin. There is some evidence that repeated exposure to organic solvent vapors in combination with constant loud noise can cause greater hearing loss than expected from exposure to noise alone. Ingestion may cause nausea, diarrhea and vomiting. This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact. |
| Short term exposure        |  |

#### Short term exposure

### Section 11. Toxicological information

| Potential immediate<br>effects | here are no data available on the mixture itself.   |
|--------------------------------|---|
| Potential delayed effects      | here are no data available on the mixture itself.   |
| <u>Long term exposure</u>      |   |
| Potential immediate effects    | here are no data available on the mixture itself.   |
| Potential delayed effects      | here are no data available on the mixture itself.   |
| Potential chronic health eff   |   |
| General                        | auses damage to organs through prolonged or repeated exposure. Once sensitized, a evere allergic reaction may occur when subsequently exposed to very low levels. |
| Carcinogenicity                | lay cause cancer. Risk of cancer depends on duration and level of exposure.   |
| Mutagenicity                   | lo known significant effects or critical hazards.   |
| Reproductive toxicity          | lo known significant effects or critical hazards.   |

Soil/water partition coefficient (Koc)

: Not available.

### Section 13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |
|------------------|--|
|                  |  |

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

Hazardous Material Information System (U.S.A.)

Health : 3 \* Flammability : 0 Physical hazards : 0

(\*) - Chronic effects

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on MSDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
